

ISCEV@ARVO Program, April 26, 2008
Convention Center – Palm A
Ft. Lauderdale FL

- 12:00 – 12:40 **Registration**
- 12:40 – 12:45 **Mitch Brigell** *Welcome*
- Session 1 – **Vern Odom**, Chair
- 12:45 – 1:00 **Tony Fisher** *Recovering transient responses using embedding is far superior to ensemble averaging: an illustration with the PERG*
- 1:00 – 1:15 **Richard Hagen** *Further investigation of the m-sequence using just one stimulating hexagon.*
- 1:15 – 1:30 **Yoshiaki Shimada** *Zeroth order kernel mfERG*
- 1:30 – 1:45 **Wendy Harrison** *Reproducibility of the mfERG between instruments*
- 1:45 – 2:00 **Rad Tzekov** *ERG intensity-response function: Naka-Rushton and beyond*
- 2:00 – 2:15 **Mineo Kondo** *Recording focal macular PhNR from monkeys*
- 2:15 – 2:30 **Brad Fortune** *Changes in retinal function after optic nerve transection or increased IOP in non-human primate*
- 2:30 – 2:45 **Deb Mojumder** *Altered Retinal signaling in RGS11 mutant mice*
- 2:45 – 3:05 **BREAK**
- Session 2 **Carol Westall**, Chair
- 3:05 – 3:15 **Vern Odom** *ISCEV XLVI Annual Symposium – Morgantown WV*
- 3:15 – 3:30 **Chai Lin Chou** *Novel mutation and phenotypes of phosphodiesterase 6 deficiency*
- 3:30 – 3:45 **Joaquin Tosi** *Unusual phenotypes of autosomal recessive retinitis pigmentosa caused by PDE6 β*
- 3:45 – 4:00 **Vaegan** *Sensitivity of all ERG and EOG parameters to retinitis pigmentosa*
- 4:00 – 4:15 **Nan-Kai Wang** *Rescue ERG in early onset retinal dystrophy*
- 4:15 – 4:30 **Joaquin Tosi** *Functional characterization, autofluorescence imaging and phenotypic variance in a sibling pair with early onset retinal dystrophy due to defective CRB1 function*
- 4:30 – 4:45 **Yozo Miyake** *100 years after the discovery of Oguchi disease*
- 4:45 – 5:00 **Mie Kasanuki** *Phenotypic features in two siblings with CRUMBS retinopathy*
- 5:00 – 5:15 **Kerstin Janisch** *Phenotypic findings in circumpapillary dysgenesis of the pigment epithelium*
- 5:15 – 5:30 **Peter Gouras** *A 25 year-old mystery finally, or almost, solved*
- 5:30 – 5:45 **Scott Brodie** *Retinal function after selective ophthalmic artery chemotherapy infusion for retinoblastoma: ERG evidence for Topotecan toxicity*
- 5:45 – 6:00 **Jonathan Lyons** *Using mfERG ring ratios to determine best measure of plaquenil retinal toxicity*
- 6:00 - 6:30 **Mike Marmor** *2008 revision of the ISCEV ERG Standard*
- 6:30 – 7:30 **Cash Bar** Atrium
- 7:30 – 10:00 **Dinner** Palm B
